

Identification

35 structured searches across
15 bibliographic sources
(10 methodological domains)

Sources in the base review
(n = 19: 18 studies + 1 review)

Selection

Candidates carried into the
extended critical review

Excluded at verification
(n = 4): could not be traced
to a primary record

Verification

Verified against publisher /
PubMed / PMC / repository record
(n = 46 newly verified)

Retained with caveat (n = 1):
incomplete metadata; not cited
in this thesis

Included

Sources in the companion review
(n = 50; 4 carried forward)
of which cited in this thesis: 45
